ABCD Trading Corporation

People lose their hard earned money due to illegal companies offering exceptionally high rates of return through investment in commodities like Gold, Silver, Crude Oil, Currencies etc.

It is important that you protect yourself from these scammers. Whenever a person or a company offers you an investment opportunity or a product in Commodities Futures:

Always Ask the company:

- Is your Company a member of the Pakistan Mercantile Exchange (PMEX)?
- Is your Company registered and licensed with the Securities and Exchange Commission of Pakistan (SECP)?

Always Check:

- The company's registration status by visiting SECP or PMEX websites or the Jamapunji portal

If you wish to conduct Commodities futures trading, always ensure that you are dealing with a PMEX member duly licensed by SECP

Complaints

You may also lodge your complaint with SECP through the following web link:
