

**Notification No.: PMEX/MKT, BD&CSS/2020/31**

**June 04, 2020**

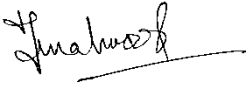

**Discontinuation of NEXT terminal**

All market participants are hereby informed that the Exchange, as a part of infrastructure development and service improvement, will be shortly switching to MT5 platform on a full-fledged basis and therefore will be permanently discontinuing NEXT terminal. As a result, MT5 would be the only terminal available for trading at PMEX, which is a much better and enriched terminal recognized around the globe. In order to avoid any inconvenience, all brokers are strongly advised to ensure, at the earliest, that all of their clients enable their MT5 accounts and are aware of its functionalities.

For guidance on resulting changes and additional benefits in the role of a broker, a separate notification along with demo facility would be issued shortly.
