

Revised Trading Fee

PMEX endeavours to provide a vibrant and diverse trading environment for all market participants to trade local commodity futures and other global products. Against this backdrop, the Exchange has successfully expanded its product suite, inducted liquidity in the market and increased its footprint in the country. Additionally, in the better interest of all market participants, the Exchange has also upgraded the technology architecture by introducing an international state-of-art trading platform i.e. MetaTrader 5.

Furthermore, the Exchange is working on other initiatives such as introducing digital account opening, automating Direct Fund Model, developing new products and trading of electronic warehouse receipts. The Exchange is confident that these initiatives will boost the confidence of the market participants and enable them to trade seamlessly in a wider variety of products at PMEX.

Despite the rising cost of doing business and increased investment in technology and services, PMEX kept its trading fee unchanged for the last four years for the sole purpose of developing the commodity futures market. Keeping in view the inflationary impact on the cost of doing business, the Exchange has revised its trading fee in consultation and with the approval of Securities & Exchange Commission of Pakistan (Annexure A attached).

The revised trading fee will be effective from November 01, 2021.

All Brokers are requested to take note of the above and inform their clients accordingly.

For further information and assistance, please feel free to contact our Customer Support Services by phone at 111-11-PMEX (7639) or by email at support@pmex.com.pk.

Best regards,

Zahid Mansoor Ali
Chief Business Officer
